

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

This book completes the publication of the legal documents from Nippur, belonging to the Dynasties of Babylon, Larsa and Isin.

To the Nippur tablets (Nos. 103 to 182) have been added in Appendix (Nos. 183 to 264) documents of the same general character which the Museum has acquired through purchase. They are similar to those published by H. Ranke in BE Vol. VI, Part 1.

I desire to express here my thanks to Prof. Morris Jastrow, Jr., for many valuable suggestions, and to Dr. G. B. Gordon, the Director of the Museum, for having facilitated my work in every way. To Dr. Leon Legrain, Curator of the Babylonian Section of the Museum, whose duties began as this work was being brought to a close, I wish to make acknowledgment for helpful cooperation.

EDWARD CHIERA.

PHILADELPHIA, JUNE 5, 1920.

INTRODUCTION

The documents here published belong to the large class of contract literature. Those in the first part of the book complete the publication of such Nippur tablets that have thus far been discovered in the Museum collections.

As with the other texts of this kind, published by Poebel in BE Vol. VI, Part 2 and in the first part of this volume, the language used is the Sumerian. Such documents offer therefore a peculiar interest, and I am certain they will be welcomed by scholars. In this group, I have been fortunate in discovering a legal decision referring to a murder. It is surprising that, with the high degree of culture attained in those times, and with the well known and perfectly codified laws then in existence, not many of such have as yet been found. To the best of my knowledge, this is the first that has as yet appeared, and might be called the oldest record in existence of a penal judgment.

Together with the legal documents of the Dynasties of Isin, Larsa and Babylon, I have published here a purchase document of the Ur Dynasty (No. 157), and six contracts of the Cassite Period (Nos. 158-63). In spite of the fact that we have an exceedingly large number of temple accounts of the period of the Ur Dynasty, contracts are as yet rather rare: the same can be said of the Cassite tablets; those thus far discovered have been published by Prof. A. T. Clay in BE XIV.

Among the Cassite documents I must call attention to No. 160, dated in the seventh year of the king ^dEnlil-á-mağ. Internal and paleographical evidence makes it absolutely certain that this tablet belongs to the Cassite period, though the

name of this king has never been found, either in the lists or in the documents.

It is especially worthy of notice that, while in all probability a Cassite by race, this ruler bears a perfectly Sumerian name. This would tend to show that he belongs to the last of the Cassite kings, and at a time when the conquerors had in their turn begun to be conquered by the superior civilization of the land.

The tablets published in appendix, though belonging to the more common class of Babylonian contracts, are very useful for the light they help in throwing upon the most important period of Babylonian civilization. Having been obtained through purchase, it is not always possible to determine, from internal evidence only, their place of origin. Most of them must have come from Sippar and Babylon.

I want to call special attention to No. 195 which, though not dated, contains a date formula right in the body of the document: mu ê-^dninni im-me-rum e-pu-šú. There seems to be no doubt that this Immerum is the known king of the Sea Land. There the Sumerian influence does not appear to have been very strong, since the date formula is in Akkadian. Another Akkadian formula, also in a Nippur document, is that of Text 171: mu ki-iš-ti ^dnin-šubur. As yet, it is impossible to place it, though it may also belong to Immerum.

Two new date formulae of the Isin Dynasty appear here for the first time:

No. 103: mu ^dir-ra-i-mi-ti ki-šur-ra ba-ğul.

No. 107: mu ^den-líl-ba-ni [bád?] mu-gur-^den-ki-ra [mu-d]ú.

The restoration is somewhat doubtful.

Some formulae cannot be definitively placed because they are given too briefly:

No. 114: mu á-kal-gal ^dmarduk-ta, probably of the Larsa Dynasty, or Samsu-iluna 12. (Cp. No. 135.)

No. 228: mu ugnim.

No. 251: mu ki-lugal-gub-ba.

Others present small additions or merely verbal changes, such as Nos. 148, 151, 219, 223. More important variants are to be found in:

No. 120: mu uš-sa ḥa-am-mu-ra-bi lugal-e (urudu)alan ^dme-dim-šā mu-na-dim. The other formulae for Hammurawi 29 have ^dšá-la, instead of ^dme-dim-šā.

No. 128 has the uš-sa of the formula for Samsu-iluna 10 instead of the usual one for Samsu-iluna 11.

No. 135: In the date for Samsu-iluna 12, after mu sa-am-su-i-lu-na lugal-e kúr gú-si-a an-ga-ám mu-un-da-bal-eš-ám, our tablet adds: á-kal-maḡ ^dmarduk-ka-gè mu-na-an-sí-ma-ta.

No. 146 gives us a splendid date formula: mu sa-am-su-i-lu-na lugal-e/níg babbar-babbar-ra zúr-ra me-te á-ki-te dū-šar-ra-kam/ki-lal-bi X gun kù-babbar ù-tu-da laḡ-laḡ-ga/^dIM ká-dingir-ra^kišù en-izkim-ti-la-ni šúb-da-ni giš bé-in-tur/nam-til-la-ni-šù/a-mu-na-ru-a, The year in which Samsu-iluna, the king, brought in and offered for his own life to the god Adad in Babylon, the lord of his help and prayer, a shining weapon, the weight of which is ten talents of silver, splendidly fashioned, a befitting offering for the New Year festival.

Lastly, I want to call attention to Nos. 117, 118, 121, 123, which have the date formula: mu ḥa-am-mu-ra-bi lugal-e. Only No. 117 has the determinative for deity before the name of the king. Together with these four tablets we must also consider No. 120: mu (urudu)alan ^dme-dim-šā mu-na-dim

(= Hammu-rawi 29); No. 108: mu du-nu-um^{ki} gal-a mu-un-df̄b-ba (= Rim-Sin 30); No. 109: mu ì-si-in^{ki} uru nam-lugal-la mu-df̄b-ba (Rim-Sin 26); No. 114: mu (uru)zar-bé-lum mu-un-gul (= Rim-Sin 29); No. 114: mu á-kal-gal ^dmarduk-ta (uncertain date, probably Larsa).

As it will appear at first glance, all these documents are not contracts, in the proper sense of the word, but temple accounts. They have been selected by me out of a group of two or three hundred tablets of the same size and contents, all briefly dated, except those here published, in the first years of the Isin era. Without a shade of doubt, they are all Nippur documents.

The problem raised by the four Hammu-rawi tablets is this. Up to the present time, as I had occasion to remark (Cp. p. 25), no First Dynasty tablets have been discovered in Nippur which antedate the 31st year of Hammu-rawi or follow the 29th year of Samsu-iluna. Now No. 120 gives us the formula for the 29th year of Hammu-rawi, thus adding two years to the period in which this king held sway over Nippur. The formulae of Nos. 117, 118, 121 and 123 would prove, if accepted at their face value, that Hammu-rawi held Nippur in his first year. This would leave unexplained the reason why we do not possess a single Nippur tablet, dated between the first and the twenty-ninth year of that king. Moreover, it would leave unexplained why these four documents should have been found together with tablets all dated in the reign of Rim-^dSin, and also with one of the 29th year of Hammu-rawi.

My opinion is that mu ḥa-am-mu-ra-bi lugal-e does not mean only: the accession year of Hammu-rawi, but also the year in which Hammu-rawi was made king, i.e., established his rule, over a certain place. In our case, this would correspond to the 29th or 31st year of his actual reign.

I cannot enter here in a new discussion of the very difficult problem of the date for the capture of Isin. But I may be permitted to state that, in spite of the Louvre prism and with all admiration for Thureau-Dangin's splendid article on this subject, I do not believe that the problem has as yet been solved.

Two garments, which she wears; two head-bands, which she wears; one bed; three chairs; one shikkatu-vessel filled with four ka-measures of oil; one magarru-basket filled with gal-gar: all these things are what Atanah-ili, her father, the son of Šili-^dShamash, has given to Šimurtiluk, the devotee, his daughter. He has then caused her to enter into the house of Zimer-^dShamash, to (marry) Warad-^dUlmashshitung, his son. Five shekels of silver, her betrothal gift, Atanah-ili, her father, has given into the hands of Zimer-^dShamash, and his heart is satisfied.

Should Šimurtiluk say to Warad-^dUlmashshitung, her husband: "Thou art not my husband" he shall sell her for money. Should Warad-^dUlmashshitung say to Šimurtiluk, his wife: "Thou art not my wife" he shall pay her two-thirds of a mana of silver. They have sworn by ^dShamash, ^dMarduk and Anmi-zaduga the king.

ANNOTATIONS.

This document is of special importance because, though clearly characterized as a marriage contract by ll. 18-26, still lacks all technical phrases used in that class of documents. It is singularly alike the documents which Schorr (ABRU, p. 278 ff.) places under the heading "Schenkung."

5. Má-gar-ra is also found in a letter (BM 23131) translated by Ungnad (Babylonische Briefe, No. 2, 16-17). It follows immediately aklam, šikaram, immerê^{un}, and is destined for the use of the devotees.
21. Instead of the verb zakáru, the other documents use the more appropriate kibû. There seems to be no doubt as to the correctness of the restoration.

ANNOTATIONS

1. Notice that the name of the small baby is recorded. This proves that names were given to children at birth, as against the theory of Langdon (Encycl. of Rel. and Ethics, Vol. 9, Col. 171) that names were imposed at the time of maturity. Additional evidence is found in Reissner: Tempelurkunden aus Telloh, No. 158 ff., which contain long lists of women employees and their children, whose names are recorded. The tender ages of the children may be inferred from the very low wages they receive for their work. For the Cassite period cp. Clay, BE XIV, No. 58 which mentions names of sucking babies.
4. We should have expected the name of the husband to precede that of the wife. The restoration of the sign ama seems, however, certain.
- 8-9. In a Nippur document, such as this, we should have expected: nam-ibila-ni-šù ba-an-da-ri-eš.
10. The expression níg nam-dim-ma-ni-šù is new. Poebel, BE VI, 2 No. 4, 7, has kù nam-Ā-Ē(= egi)-a-ni-šù The money for having raised him, but it was the case of an older child.
21. The tablet closes with two Akkadian words. This is unusual, since practically all First Dynasty documents from Nippur are entirely Sumerian, and this one dates as far back as ^dEnlil-bani of Isin.

ANNOTATIONS

8. Notice the preposition a-na, in Akkadian, which is also repeated in l. 18.
9. The sign ta is a scribal error. We should expect no postposition, because of the preceding a-na. In any case, the correct postposition would have been ra, instead of ta.
10. The penalty threatened to the adopted son is very light. In other documents we find: he shall be branded and sold as a slave.
21. Instead of esig, the text has lfl. Undoubtedly a scribal error. Notice the absence of any oath.

TRANSLATION

Ishtar-utari, a female slave, Nudubtum, the daughter of Šili-^dShamash, has set free. Her forehead she has cleansed. The mark (?) of her slavery she has destroyed. A manumission document she has given her.

ANNOTATIONS

1. The first line is the heading of the document. Of this we have only the case, and this explains its great brevity.
3. I read daughter because Nudubtum is a feminine name. It is not uncommon to find dumu for dumu-sal in this class of documents.
6. The line is perfectly clear and agrees with the text published by Poebel BE VI, 2 No. 8, l. 7, where the last sign must be changed into gaz. As for the meaning of the sign bi, cp. V R 47, 32b: mu-tu-tam am-ma-šid.

The woman Shugirat, a possession worth five shekels of gold; the girl Ama-^dSherua, her daughter, worth six shekels of gold; the young man Warad-^dGula, her son, worth seven shekels of gold; the woman Tukulti-^dGula, his wife, worth six shekels of gold; (a total of) four slaves belonging to Gimillu, their master, the anointing priest of ^dNinlil, the son of Ubaja, which ^dIM-šar-iláni, the son of Beli-emugaja and the chief Nibru-dini, the archivist in the city of Nippur, have bought. For their whole price they have paid one third of a mana and four shekels of gold. In the future Gimillu, the anointing priest of ^dNinlil, his heirs and his family, as many as there are, against ^dIM-šar-ilani, the son of Beli-emugaja, and Nibru-dini, the archivist

of the city of Nippur, shall not speak a word or advance a claim. Both of them have sworn by ^dEnlil, ^dNinlil, ^dNin-urta, ^dNabu and the king Burra-buriash.

ANNOTATIONS

This Nippur document of the Cassite period differs in many respects from the Sumerian documents of the time of the First Dynasty. The chief points of difference are noted below.

1. First Dynasty documents would have: I sag-géme . . . mu-ni-im. The price of the slave is generally omitted. In a contract of the Ur period, which is translated after this one, the price is mentioned: ní-g-šé-ma-ni X gín kù-babbar. In the Cassite documents the monetary unit is generally the shekel of gold. The expression ðim-nam "it is equivalent" is new. In another purchase document of this same period published by Clay (BE, XIV, No. 7) we find: kal ^mi-ba-áš-ši šám X gín guškin.
2. Very peculiar is the expression IV nam-lù-gàl-lu "IV human beings." Notice the relative šá followed by the genitive gi-mil-lim. This betrays a very strong Semitic influence.
8. Nibru^{ki}-di-ni is a known business man of his time: he is son of ^dNinurtanâdin-aḫé (BE XIV, Nos. 1, 7, 8). Nibru^{ki} is written ^den-lí^{ki} in l. 8 and without the first determinative in l. 18. Both the lù-sag and the pisan-dub-ba are not mentioned in other contracts.
9. Instead of šám, First Dynasty documents would have šé.
10. BE XIV, Nos. 123 and 128a have: a-na šam-tíl-la-bi-šù, another evidence of Semitic influence.
12. Instead of ū-kur-šù, BE XIV, No. 7, 21 has: u-ne-du ud-a-ga-bi-šù.
14. Notice the ibila-bi, instead of ibila-ni. The ní-ri-a "family" is not mentioned in other contracts.
16. The postposition šù is employed in place of the more correct ra, which would generally follow the name of the father.
- 19-20. The ending ám is only found here. BE XIV, No. 1, 15-16 has for both expressions the ending eš, while another document of the same period (ibid. 7, 28) employs only the phrase inim-nu-gé-gé-da-áš.
21. No names of gods or king are mentioned in First Dynasty documents from Nippur. The formula is simply mu lugal-bi in-pad. As for the gods mentioned, BE XIV, 7 omits ^dNinurta, and BE XIV, 1 omits both ^dNinurta and ^dNinlil.

23. Ur-bi is also found in BE XIV, 7 and regularly omitted in purchase documents of the First Dynasty. The variant in-pad-da-ne-eš is new, and with this cf. BE XIV, 1 which has in-pad-da-e-eš. It is clear that the sign NE is part of the plural ending, and not phonetic complement of the sign pad. The former transliteration must therefore be corrected.

ANNOTATIONS

7. The two signs lù have been written one above the other.
8. In-pad-eš is written with a new variant. Instead of the regular sign eš, the sign šù, which has the phonetic values eš, uš, -š-, has been employed.

owned against Warad-kubi, the son of Ibku-^dNikal, this possession has passed from Ali-talimi and Mudab. Warad-kubi in ten days shall pay the money to ^dSin-rimeni, the son of Ibni-^dShamash.

ANNOTATIONS

4. Instead of šeš-ni the text has ad-ni, his father. Very probably a scribal error.
7. Bi-šá-at is the feminine of bišum, possession.
9. Na-aš-ḫa-at-ma, permansive from nasāḫu. Cp. Schorr, ABRU, 67, 9.

ANNOTATIONS

The above given document is a division of inheritance between the heirs of a certain Zijatum. It is of peculiar importance because the bulk of the estate to be divided consists of rights upon religious and priestly offices, generally for short annual periods. In no other document we find so many different titles as belonging to one single person.

The tablet has not been translated because it is too uniform in character and offers no unusual expressions.

ANNOTATIONS

5. The sign which I have read banšur appears written like silig (Br. 919). The tablet is however not very clear, and I believe the value banšur is absolutely required by the context. The sign tum, at the end of the line, is uncertain.
8. The third sign is written ŠAD. Here, also, the sign rag is required by the context.

Gimillum, the son of Appali, has hired for himself Ina-esaggil-zer, the son of Warad-ilishu, as a farmer until the end of the harvest. His monthly wages shall be one shekel of silver, and also two and one half for his food and three and one half for his drink. He shall provide for himself implements and clothing (?). Should the trees prove unfruitful, he shall pay the

money at the regular rate. In the third month he shall begin work. The trees he shall widen and transplant. Should he abandon and go away, he will lose his wages. In account of his wages he has received one shekel of silver.

ANNOTATIONS

4. Written: Engar-ru-tim.
- 11-12. The two words iniganni and zubri cannot be identified; sabbâti is probably the plural of sibu, some kind of garment. In other documents of this kind a stipulation is found to the effect that the hired man shall provide for his own clothing. Cp. Schorr, ABRU, 153, 11-12: it-tira-ma-ni-šú-ma il-ta-ba-aš-ši; ibid. 154, 12-13: it-ti a-gi-ri-šú-ma il-ta-ba-aš-ši.

TRANSLATION

Concerning the office, the possession of Lu-^dRa, a possession which Esagzikungal had bought for cash, for the whole of it ^dNanna-ibila-mansi and his brother Mati-anum have satisfied their hearts with five shekels of silver. In the future to either the office or the money they shall advance no claim. They have sworn by the king.

ANNOTATIONS

1. Mar-za is a phonetic writing for Pa-An = marza, garza. This term refers to priestly offices. Cp. No. 182, 10, translated on p. 161, and Poebel, BE VI, 2, p. 13-14. Sometimes the word appears to be used interchangeably with PA-lugal, always with reference to priestly offices, and probably with the same meaning.

TRANSLATION

^dNanna-sig, the son of Lu-^dSin, Ku-^dEnlilla, the son of Ku-^dNanna, the barber, and ^dEnlil-ennam, the servant of Adda-kalla, the farmer, have killed Lu-^dNinni, the son of Lugal-eresh-dug, the nu-esh-priest.

At the time when Lu-^dNinni, the son of Lugal-eresh-dug, died (they accused?) Nin-dada, the daughter of Lu-^dNinurta and wife of Lu^dNinni, of having killed Lu-^dNinni, her husband.

.....
 Her husband she killed: a weapon she took and in the street against him she went (?). It was she who killed her husband. The guilt they. The council of Nippur (examined ?) the testimonies.

^dNanna-sig, the son of Lu-^dSin, Ku^dEnlilla, the son of Ku-^dNanna, the barber, and ^dEnlil-ennam, the servant of Adda-kalla, the farmer, were taken for murder.

ANNOTATIONS

This document is especially important, since it is the first legal decision concerning murder thus far discovered. Though not dated, it must belong to a period little antedating the First Dynasty of Babylon. It is interesting to find out that penal cases were under the jurisdiction of the city council.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes a combination of direct observation, interviews with key personnel, and the use of specialized software tools. The goal was to gather comprehensive information about the current state of operations and identify any potential areas for improvement.

The findings from the data analysis are presented in the third section. It highlights several key trends and patterns that have emerged. For example, there is a significant increase in certain types of transactions, while others have shown a steady decline. These insights are crucial for understanding the underlying dynamics of the system.

Finally, the document concludes with a series of recommendations based on the findings. These suggestions are designed to address the identified issues and optimize the overall performance. The author believes that implementing these changes will lead to more efficient processes and better outcomes for the organization.
